Problem Statement

Covid-19 made all to use sanitizers these days.

Disinfecting things before using is must and to be careful before touching anything.

Background Research

- Developed and modified product
- according to needs and affordability
- of people
- We came up with this product to fulfill
- the needs of people

Concept / Ideation

- One product with two different needs are
- Fulfilled.
- Portable and quick to use.
- In this pandemic, this product is very useful, as we must
- constantly keep sanitizing ourselves.
- Thermometer can also be easily carried in this product

Prototype Model

2-way sanitizer
